Electrical and Electronic Engineering concerned with Digital Signal Processing. Yearly we attract numerous postgraduate engineering students studying towards their Masters and PhD degrees. The group has many areas of particular focus and research targeting signal processing of various kinds.

Signal Processing & Machine Learning -Electrical and ...

Coupled with machine learning, the use of signal processing techniques for big data analysis, Internet of things, smart cities, security, and bio-informatics applications has witnessed explosive growth. This has been made possible via fast algorithms on data, speech, image, and video processing with advanced GPU technology.
